EXPLANATION OF REQUEST FOR PROPOSALS
TO ALL INTERESTED PARTIES

By following point 10 of Chapter VI, the ordering party informs that within the request for proposals for supply of raw materials, intermediates, solvents, catalysts and other substances as well as analytical supply for active substance synthesis carried out for the research carried out in the project, conducted in the mode of inquiry based on the provisions of the Act of April 23, 1964 - the Civil Code (Journal of Laws 2014, item 212, as amended), **questions were received**. Please find the questions and answers are **below**:

Question number 1

I am preparing the offer for project ZO-02-2017. The price is required including IMPORT TAXES & INLAND SHIPPING COST to Evestra Inc. at San Antonio.

The questions is:

1. What is usually the Import Tax Rate for chemicals & Instruments?
2. What is usually the cost for 100kg-1000kg goods to be shipped from Houston to San Antonio?

Answer: The Employer explains that the proceedings are conducted on the basis of Polish law. According to the query, the vendor is required to include in the price calculation the cost of transport to the destination of the object of delivery. However, the contracting authority does not have information on the transport costs in force in another country, so it is the responsibility of the vendor to prepare the tender with due diligence, and thus also to calculate the price, taking into account the costs of customs duties, taxes, duties and transport costs to the destination.
